X1 6. [] LIAISON Discussed with Walt Ramsay, Administrative Assistant to Senator Harrison Williams (D., N.J.), arrangements for the provisioning of materials and briefings in connection with a Senate delegation trip to the PRC on 25 November. Additional Members of this delegation at present include Senators Howard W. Cannon (D., Nev.), Paul S. Sarbanes (D., Md.), Donald W. Riegle (D., Mich.), Dale L. Bumpers (D., Ark.), Henry L. Bellmon (R., Okla.), and possibly another Republican Senator. The delegation's interests include health and education (Senator Williams) and grain production and grain transportation (Senator Bumpers). We will work to identify the interests of other Senators.

Glennon said that a letter regarding the briefing from Subcommittee on International Operations Chairman George S. McGovern (D., S. Dak.) had been drafted. We arranged for a courier to pick up the letter.

Smeeton and Sulc said they were attempting to determine what specific information had been passed by the Department of Justice to the House Ethics Committee. I told them that I could not help them in this regard since I had never seen the precise information involved. They said they would probably be checking with NSA on this same subject. 25X
